

# DIGISTHAN

*It's Time To Go Digitally*

## ABOUT US

Launched in the year 2017, Digisthan is primarily an IT agency with a specialization of developing a wide range of Softwares, Mobile Applications & Websites/Online Portals

## WHAT WE DO

### Software Development

#### OUR FEATURED PRODUCTS

#### 1. PRODUCT PROCESS MANAGEMENT SYSTEM (PPMS)

From procuring raw materials till the point of sale of the end product, you can get a detailed overview about the processes.

#### 2. ONLINE TRACKING MODULE (INDUSTRY BASED) (OTM)

Now tracking has become easy with our OTM. From manufacturer till retailer you can have a clear picture about your products whether they have been properly dispatched to their destinations.

#### 3. BILLING SOFTWARE SYSTEM WITH OR WITHOUT GST(BSS)

A generic billing software that can also be used as an **inventory management system**

#### 4. INSTITUTE MANAGEMENT SYSTEM (IMS)

From maintaining students' portfolio to generating their online performance report and payment system.

#### 5. HEALTH MANAGEMENT SYSTEM (HMS)

Now it is easy to keep every minute details about patients. This software even reminds about the scheduled tests or treatments which a patient needs to have.

#### 6. HOUSING FINANCIAL MANAGEMENT SYSTEM (HFMS)

With our **HFMS**, it has become easy to keep track about the payments of all the residents staying in an apartment or complex.

## Mobile Application —

We have the expertise of developing any sort of mobile application on Android Platform as well as on IOS.

## Website designing and development —

Nowadays, it's all about User Experience (UX). We develop websites from simple online portfolio format to high end E-commerce junctions. We also develop online customized and interactive portals.

**\*\* Choose us for any customized Software, Mobile Application & Website as per your requirement.**
